## A leading installer

Founded in 1980, the **Strata Window Group** has become one of the region's leading installers and manufacturers of windows and doors to both the Domestic and Commercial markets.

Our Commercial Division was established in 1991 to focus on our varied and expanding commercial customer base. Since then our reputation for excellence, both of product and service has grown. Our impressive portfolio of completed commercial contracts is wide ranging and is testament to our experience in this area of installations. All the photographs displayed in this brochure are a selection from some of the numerous contracts installed by **Strata Commercial** over the last few years.

Buildings and projects Strata have successfully completed and regularly work on include:

- Schools and colleges
- Hospitals and care homes
- County buildings
- Libraries
- Architectural design and new build
- Offices
- Industrial units and factories
- Diocese properties
- Police stations
- Fire stations

- (a) Upvc windows at Flaxhill Junior School, Tamworth, Staffs.
- (b) Upvc curtain walling to stairwell at Newcastle Community High.
- (c) Aluminium entrance lobby, KMF H.Q., Stoke-on-Trent.
- (d) Upvc curtain walling in classrooms at Netherstowe High School, Lichfield, Staffs.

## British Standards quality assurance

**Strata** - a BSI registered company - were the first in Staffordshire and Cheshire to be awarded the BSI Kitemark Licence for Window Survey and Installation. The BSI employs very stringent standards with rigorous on-site assessments covering all aspects of installations, from the initial survey, through to completed works. Achieving this prestigious Kitemark differentiates **Strata** from its competitors, our products are accredited with many other BSI Kitemarks for enhanced window security, safety, construction and performance. This is further evidence of our total commitment to quality workmanship.

Strata's joinery division manufactures all types of purpose made joinery. From bespoke and traditional designs to multi numbered window projects, we have a tailor-made solution that fits your needs. Strata's advanced computer assisted manufacturing methods, ensure that our products are produced to the highest standards of quality. Our own award winning high performance window and door system 'Elite Hardwood' recently won the 'Staffordshire Built in Quality Awards 2005' for our design of a special atrium extension which incorporated a new staircase to access the first floor.

## Tried and tested

**Strata** install, manufacture and supply windows and doors of the highest quality. We only use tried and tested systems that are well known in the industry because of their excellent specification and versatility in use. We have an extensive range of window and door systems, including ancillaries and hardware products, providing a solution for any installation.

- PVCu, aluminium or hardwood products
- Individual windows or doors fitted
- Storey height fenestration
- Aluminium curtain walling
- PVCu curtain walling
- Covered walkways
- Disabled access entrances
- Shop fronts
- Automated main entrances
- Patent glazing

## Expertise and experience

- Feasibility surveys, estimates and budget costings
- Computer aided design including system profile support
- Liaison with local authorities, architects and surveyors
- Project management
- Health and safety management
- Asbestos analysis, monitoring and removal
- All associated works (building work, electrics, etc.)

Our continual investment in training, combined with our extensive experience, enables us to provide a professional and comprehensive service in the specialised field of commercial window and door fenestration. With contracts ranging from £100 to £1 million, you can be certain with **Strata** that we have the resources to complete any installation with the minimum of fuss and disruption.

From all aspects of advice and costing, to on-site support and project management, our commercial team has the expertise and knowledge to provide an installation that fits your requirements exactly. At **Strata**, we optimise the design to provide solutions that are fit for purpose, with full compliance to all regulations and legislation.

**Strata** has built a strong working relationship with various companies, schools, and local authorities. Over the years we have worked closely with county surveyors, architects, quantity surveyors, and builders, clerks of works, governors, head teachers and property managers, providing an invaluable service from a company they know they can rely on and trust to manage their replacement window and door requirements. We are also an approved contractor for many housing associations and local authorities, including Staffordshire County Council with whom we have been in a partnership agreement since 2002, which is priced through a Schedule of Rates pricing system.

- (a) Aluminium curtain walling, windows and doors, Datel Electronics, Stone, Staffs.
- (b) Aluminium frontage for Citizens Advice offices, Hanley, Stoke-on-Trent, Staffs.
- (c) Upvc windows and aluminium doors at Blythe Bridge High School, Staffs.
- (d) Aluminium windows and automated sliding doors, Burton-on-Trent, Staffs.

## Qualified staff that care and serve you right

Health and Safety management and awareness is increasingly becoming a key priority within the building industry. At **Strata**, we have had a rigid Health and Safety plan in place for many years. An essential part of this plan are the risk assessments and method statements that are produced for each and every contract regardless of size or value. We take very seriously our duty of care once we start a contract. As well as an installation that is fit for purpose, we ensure that it is completed in a safe and proper manner.

**Strata** are registered as an accredited company within the Contractors Health and Safety Assessment Scheme (CHAS) - having demonstrated compliance with, and sound management of, current basic health and safety legislation. **Strata** are also registered on the Constructionline register of approved contractors - having met pre-qualification requirements appropriate to public and private sector contract procurement.

CONTRACTORS HEALTH & SAFETY ASSESSMENT SCHEME

constructionline

**Strata's** familiarity and understanding of installing windows and doors in occupied buildings such as schools, offices and care homes, is second to none. Our management, survey, supervisors and installation teams are highly experienced and competent in dealing with all Health and Safety issues that are specific and relevant to commercial installations. We have good working knowledge of Construction (Design and Management) Regulations 1994, and our staff have received substantial training in many other areas of Health and Safety.

This commitment to all round professionalism and staff training gives us an edge and a first class reliable service that our customers have come to rely on and trust.

### Survey and contract management

- NVQ Level 3 Fenestration in Survey and Installations
- Health & Safety trained - working in occupied properties, working at height
